GitHub: https://github.com/Chrisdocs

Driven, focused, adaptive, and creative are just a few adjectives that describe what I can bring to your team. As a junior developer I have a strong background in team coordination, design and attention to detail which lend themselves to developing ideas into reality. Together, we can build something better.

Skills

Hard: Adobe Photoshop | Front End Development | Back End Development | Responsive Design | Mobile First Design | Project Management

Soft: Creativity | Attention to Detail | Leadership | Teamwork | Communication | Organization | Agility

Technical: MERN Stack (MongoDB, Express, React, Node.js) | MySQL | NoSQL | GraphQL | HTML | CSS | JavaScript | Git Version Control | Command Line | CSS Frameworks | jQuery | Mongoose | CRUD | DRY design | RESTful APIs

Projects

BikeSleuth | Social bike tracking app | 2020 | MERN, GraphQL, TailwindCSS, Apollo Server, JWT, Bcrypt, Mongoose

GitHub: https://github.com/Chrisdocs/FindMyBike | **Deployed:** https://bikesleuth.herokuapp.com/#/

Summary: Users can add their bike to a database, which can be searched through by other users by location. Users can help each other locate lost or stolen bikes.

Chat'n'Learn | Social language learning chat app | 2020 | Socket.io, Bootstrap, Express, Session, Sequalize, Handlebars, Jest

GitHub: https://github.com/Chrisdocs/ChatnLearn | **Deployed:** https://chatnlearn.herokuapp.com/

Summary: Users can find friends from around the world who are trying to learn their native language. Using conversational learning, promotes language retention.

Experience
